## Final Fantasy 7 Aerith + Tifa

Happy Birth Day Gaki!

Final Fantasy 7 Aerith + Tifa

Hello! I'm Kamiya Asuka, of Zoom. What with it being February, and what with it being an Adult-Only event, here's a birthday story. And it's Asuka's Tifa, to boot! Not only that, but this time around I decided to let my own wee inclinations take the reign for once and move straight past "dightly yuri" into full-blown Yuri territory. I'm a little worried as to whether or not you'll all come along for the ride, but my obsessions would not be denied! At least, that's my challenge to you, so please stick around until the end of the story.

Don't be.  
You liked  
them, right?  
That's all that  
matters to  
me.

You  
went  
out for  
me and  
I got mad  
at you  
for it...  
I'm  
sorry.

Oh...

Wah.

It looked  
into a  
drinking  
party.

Wah

Well, I didn't think you'd be another girl... But, well, you definitely fit the profile of whoever she was talking about.

I love it...!

Although it may seem like a girl, it's definitely not a girl, it's a really cute one.

So, did you like your bouquet?

I'm home~!

End\*

The goal at the flower shop was Asche, from FFX.

I figured it would be better using her than some random original-on character (oh, who am I kidding? I just wanted to draw Asche), but making her into a flower personage wasn't the best suit for her character, come to think of it.

I'm sorry for this book being a little on the sparse side. I started it after giving up on a different one I'd been working on, so I had much less time than usual to work on it. (I'll draw Tifa's uterus even if it kills me! That was the negative, anyway, but I kinda wanted to draw more than that, just so you know.) Oh, but there was a certain point in the middle of the book where I was working in a totally different environment (OS and software version-wise), but I was really moved by how beautiful the end result ended up being. (Can you tell which page it was?)

I'm at that age where I want to version up my own environment, but there's the whole problem of not having built up anything in advance, so it's all I can do to plod along... But I digress.

Anyway, this is the first time in a while I've gone with costumes that weren't in the game. I designed these new outfits in a way that would call these original costumes to mind (though I'm especially proud of Asche's, if I do say so myself), s-s-s, how did they look? (u-uhm, u-uhm) (In Yuffie's case, her costume was from a decade I did a while ago that I really liked, and she's the exception to the rule. The whole on her release meant, "A blossom to be heapt.")

It looks like I'm running out of space, so I'll cut it short here.

It's about four days late at this point, but happy 10th 23rd birthday, Asche!

I'll love you forever and ever!
